### **Invitation to web seminars:**

#### **Intelligent concepts for metering and mixing technology**

##### **DOPAG speakers discuss the successful application of foam gaskets and lubricants**

In new web seminars, DOPAG speakers discuss metering and mixing technology for foam gaskets, adhesives, potting materials, greases and oils. The web seminars are aimed both at novices and at experienced technicians looking to expand their knowledge.

##### **Lubrication in automated production processes**

The first web seminar 'Greasing and oiling in fully automated production processes', with speaker Roger Hermann, Director Key Market Lubrication, gets things going. The modular structure of DOPAG systems enables the design of individual solutions. From material supply systems and a wide range of valve types to process monitoring systems, DOPAG offers everything from a single source. In this web seminar, Roger Hermann will show where and how lubrication systems are used, what are the possible areas of application, and what are the key factors in ensuring smooth production processes.

##### **Gasketing with dynamicLine**

In the second web seminar, Michael Mähr, Manager Projects Gasketing, presents the areas of application and the benefits of PU gaskets. He will explain the prerequisites for successful series production, in which all production steps are automated and thus carried out in a reliable, reproducible, cost-efficient manner. He will show how dynamicLine from DOPAG guarantees consistently high quality and a long service life for all components produced.

## Sessions

The web seminars last 60 minutes each and are available worldwide. Different sessions are provided for different time zones. Participation is free.

### Lubrication in automated production processes

Germany-Austria-Switzerland (German)	April 20, 2021 at 10 a.m. Berlin/Europe (UTC 8 a.m.)
Europe (English)	April 20, 2021 at 3 p.m. Berlin/Europe (UTC 1 p.m.)
Asia (English)	April 21, 2021 at 9 a.m. Berlin/Europe (UTC 7 a.m.)
Americas (English)	April 21, 2021 at 4 p.m. Berlin/Europe (UTC 2 p.m.)

### Producing PU gaskets efficiently with dynamicLine

Germany-Austria-Switzerland (German)	April 27, 2021 at 10 a.m. Berlin/Europe (UTC 8 a.m.)
Europe (English)	April 27, 2021 at 3 p.m. Berlin/Europe (UTC 1 p.m.)
Asia (English)	April 28, 2021 at 9 a.m. Berlin/Europe (UTC 7 a.m.)
Americas (English)	April 28, 2021 at 4 p.m. Berlin/Europe (UTC 2 p.m.)

To see all sessions available and to register, visit [www.dopag.com/web-seminars](http://www.dopag.com/web-seminars).

The series of web seminars will continue in the coming months based around further topics, including adhesives and potting materials.

## About DOPAG

We are one of the world's most experienced manufacturers of high-quality metering technology. Wherever foam gaskets, adhesives, resins or lubricants are metered and applied in industrial production, we offer reliable, precise solutions. We provide systems and components for highly automated production processes, including for the automotive, wind, household appliances and electrical industries, as well as for aviation and space travel.

DOPAG is part of the HILGER & KERN GROUP, a reliable supplier, and development and service partner to industrial companies in a variety of market segments for more than 90 years. The group employs around 350 people and has subsidiaries and distributors in more than 35 countries.
